Note: We recommend the use of HTWR1 hose reel with hose lengths of 50 metres or more.

The Hi-Force HTWR1 hose reel is designed for use with Hi-Force torque wrenches when there is a requirement for the wrench and pump to be separated by significant distance such as subsea applications and can accommodate twin line hoses up to a length of 100 metres. The reel is supplied with twin 0.5 metres length lead hose connections enabling the connection of either the HTWH50, HTWH75 or HTWH100 hose sets depending on customer requirements.
